

MEMORANDUM

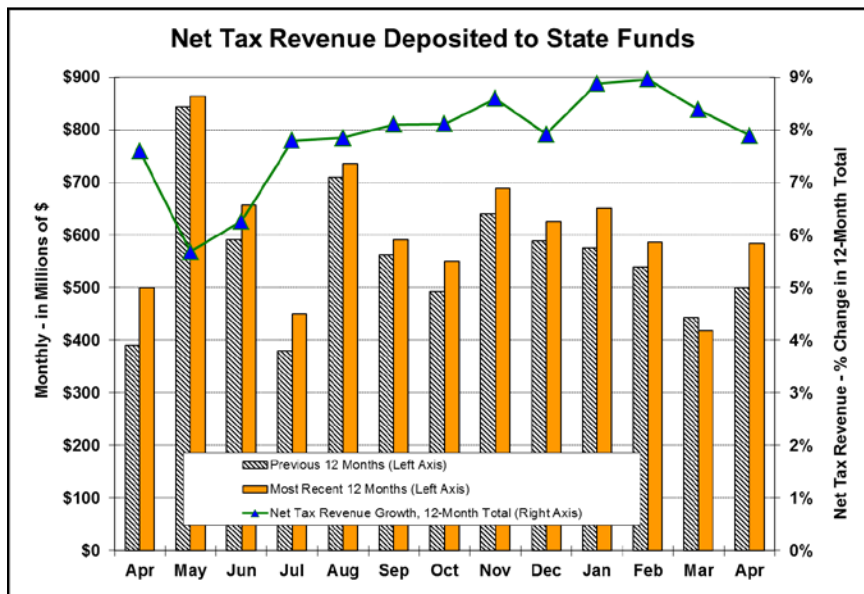

TO: Members of the Iowa Senate and
Members of the Iowa House of Representatives

FROM: Jeff Robinson
Shawn Snyder

DATE: May 29, 2013

Twelve-month Total Net Tax Receipts Through April 30, 2013

The attached spreadsheet presents net tax revenue deposited to State funds for the 12-month period ending April 2013 with comparisons to the previous twelve months. April 2012 to April 2013 one-month comparisons are also presented. The source of the information is the State accounting system, including non-General Fund accounts. All accounting transactions related to taxes remitted to the State were reviewed, along with the refunds issued against those taxes.

Overview of Current Situation

Net tax receipts increased significantly in April (\$84.7 million), more than reversing the decline experienced in March (\$-24.2 million). The monthly volatility this year is the result of recent federal tax changes and altered tax due dates. While corporate and individual income tax receipts remain very strong, sales/use tax and gambling tax receipts have been weakening the

past few months. At 7.9%, the annual net tax revenue growth rate is down from the February high.

Month of April Comparison

April net tax receipts totaled \$584.1 million, an increase of \$84.7 million (17.0%) compared to April 2012. Major taxes and their contribution to the month's change include:

- Individual Income Tax (positive \$67.6 million, 30.2%) – Gross income tax deposits increased \$93.5 million in April while individual income tax refunds issued increased \$25.9 million. Income tax transactions since mid-December have been heavily influenced by the timing and results of the recent federal debate concerning income tax rate changes. The U.S. Congress enacted significant changes January 1, 2013. The uncertainty surrounding that legislation caused taxpayers to remit larger income tax estimate payments than normal. The uncertainty also caused federal tax return filing to be delayed, and this in turn delayed State filings. As a consequence, very few individual income tax refunds were issued in January and February 2013 compared to a normal year and farm tax returns, normally due March 1, were delayed until April 15. The impact of the filing delay reversed in April and the result was significant increases in both tax return payments and tax refunds.
- Sales/Use Tax (negative \$4.9 million, - 3.5%)
 - Road Use Tax Fund use tax (fee for new vehicle registration) decreased \$1.5 million.
 - Gross General Fund sales/use tax receipts decreased \$2.7 million (- 1.9%). Regular sales tax refunds were unchanged and school infrastructure transfers out increased \$0.6 million in April.
- Corporate Income Tax (positive \$18.3 million, 38.9%) – Deposits of corporate income tax receipts increased \$19.8 million in April, while corporate tax refunds increased \$1.5 million.
- Fuel Tax (positive \$2.4 million, 7.5%) – Gross fuel tax deposits increased \$2.3 million for the month while tax refunds decreased \$0.1 million.
- Cigarette and Tobacco Taxes (positive \$2.2 million, 14.2%)
- Gambling Tax (positive \$0.4 million, 1.6%)

Year-over-Year Comparison – Net Tax Revenue

During the 12-month period ending April 2013, net revenue from all taxes deposited to State funds totaled \$7.404 billion, an increase of \$541.4 million (7.9%) compared to the prior 12 months. Major contributors to the year-over-year dollar and percentage changes include:

- Individual Income Tax (positive \$310.4 million, 10.4%) – Individual income tax continues to post significant year-over-year annual growth with much of the gain the result of very positive tax year 2013 income tax final returns.
- Sales/Use Tax (positive \$101.5 million, 4.4%) – Sales/use tax receipts continue to post very good gains, both for the General Fund and for the Road Use Tax Fund (vehicle sales). However, the most recent four months produced very little of the 12-month increase.
- Corporate Income Tax (positive \$103.1 million, 28.8%) – Corporate income tax revenue has shown significant strength since May 2011.

- Fuel Tax (positive \$1.2 million, 0.3%) – According to Department of Revenue fuel sales reports, over the most recent 12-month period, Iowa taxable gasoline/ethanol gallons sold decreased 5.1% while taxable diesel sales increased 0.9%. Taxable total gallons decreased in 20 of the past 24 months, when compared to the same month the prior year. Taxable diesel sales over the most recent 12-month period are 3.5% lower than the March 2008 peak diesel sales level.
- Gambling Tax (positive \$0.2 million, 0.1%) – According to Racing and Gaming Commission statistics, 13 of Iowa's 18 casino/track locations recorded negative annual adjusted gross revenue (AGR) growth for the 12-month period ending April 2013. The combined AGR growth for the 18 facilities was negative 0.5% over the previous 12-month period. Across all facilities, the AGR for the most recent 12 months totaled \$1.448 billion. The annual AGR total has now declined in six of the past eight months and is 1.5% below the November 2012 peak.
- Real Estate Transfer Tax (positive \$3.7 million, 24.3%) – Annual real estate transfer tax receipts peaked in June 2006 at \$19.2 million and bottomed in May 2010 at \$12.8 million. A new annual peak was achieved in January, 2013. However, there has been a \$0.3 million decline from that new peak over the past two months.
- Cigarette and Tobacco Tax (unchanged, 0.0%).

Tax Spotlight – Cigarette Tax and Tobacco Tax

Tobacco products are taxed under the authority of [Iowa Code Chapter 453A](#). Based on law changes during the 2007 Legislative Session:

- Cigarettes and little cigars are taxed at \$0.068 per cigarette (\$1.36 per pack of 20).
- Snuff is taxed at \$1.19 per ounce.
- Cigars are taxed at 50.0% of the wholesale price, not to exceed \$0.50 per cigar.
- All other tobacco products are taxed at 50.0% of the wholesale price.
- Effective July 1, 2012, in addition to the tobacco tax of 50.0% of the wholesale price, roll-your-own (RYO) cigarettes are taxed at \$0.0306 per cigarette (\$0.65 per pack of 20).

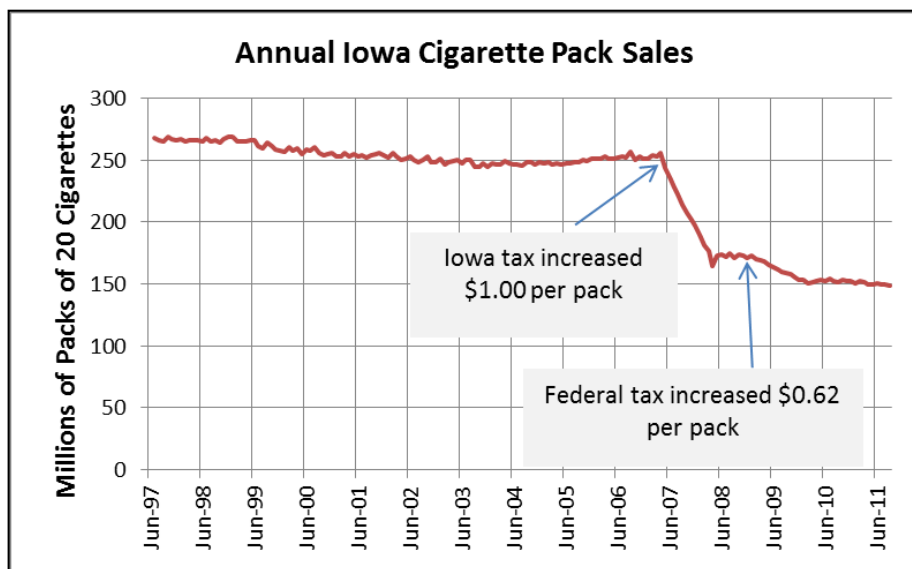

The Iowa cigarette tax was first enacted at a rate of \$0.02 per pack of 20 cigarettes (HF 678, Cigarette Tax Act of 1921). The cigarette tax rate was increased periodically and reached \$0.34 per pack in 1988. In 1989 the tax was lowered to \$0.31 per pack and then increased in 1991 to \$0.36 per pack. The tax remained at \$0.36 per pack until the 2007 Legislative Session. The current State tax rates went into effect on March 16, 2007.

The tobacco tax was enacted in 1967 at a rate of 10.0% of the wholesale price (HF 702, Division 1, Tax Modification Act of 1967). The tax was increased to 15.0% in 1985, 19.0% in 1988, and 22.0% in 1991. The rate stood at 22.0% of the wholesale price until the 2007 Legislative Session.

The tax imposed on cigarettes must be paid by the person making the first sale in Iowa. Cigarette stamps affixed to the package indicate the tax has been paid. Cigarette tax returns are to be filed by the holder of a permit by the tenth day of each month for the preceding calendar month. Tobacco (other than cigarettes) tax returns must be filed by the twentieth day

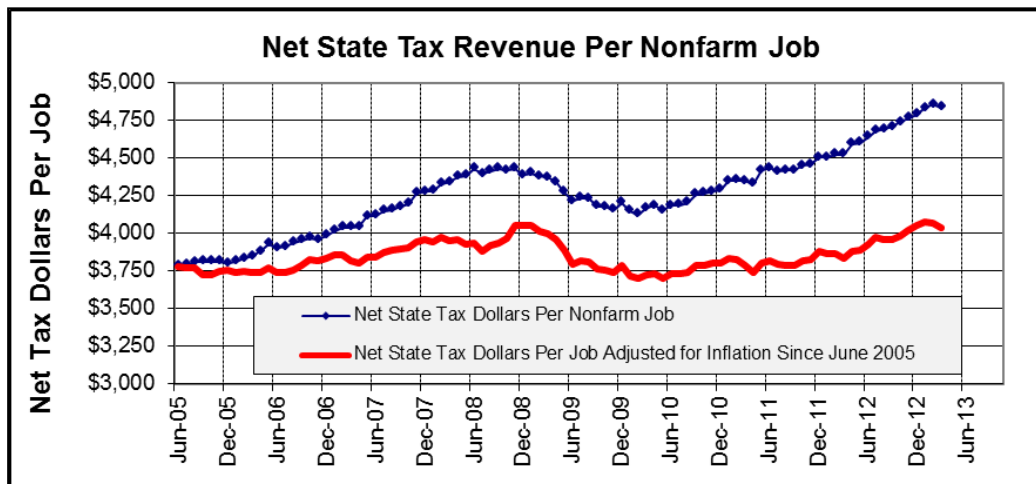

of each month for the preceding calendar month. The first \$106.0 million of revenue received from the cigarette and tobacco tax each fiscal year is deposited in the Health Care Trust Fund with the remainder deposited in the State General Fund.

The following graph shows the 12-month moving total of cigarette packs sold in Iowa, as reported by the Iowa Department of Revenue. The line shows a general sales decrease, punctuated by the impact of one State and one federal cigarette tax increase.

Tax Revenue and Employment

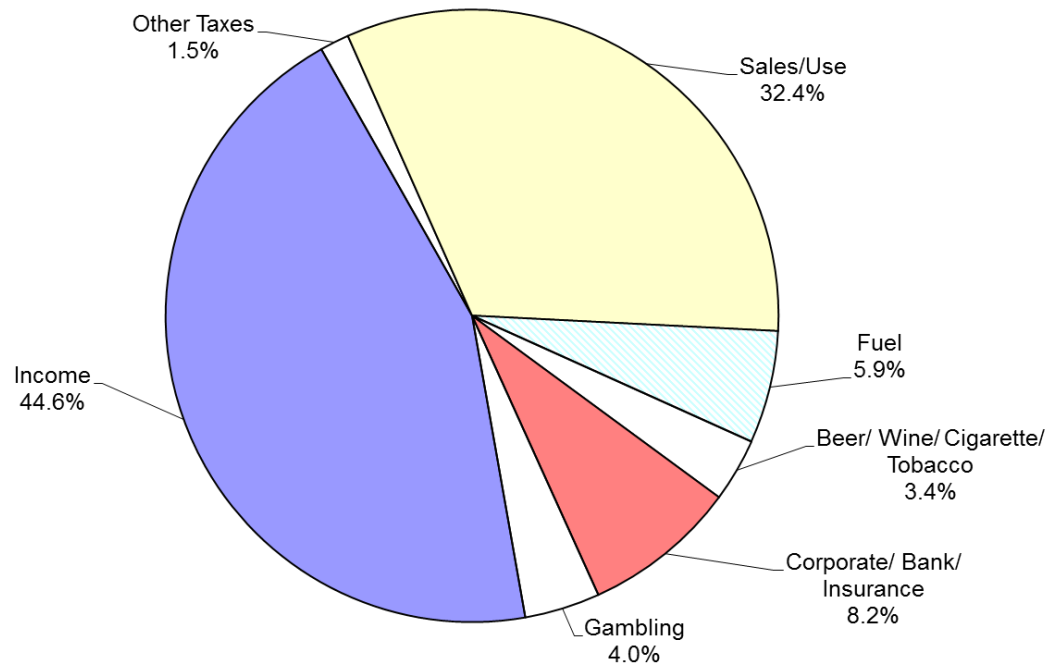

The average reading for Iowa nonfarm employment over the 12 months ending March 2013 is 1,513,400 and net State tax receipts over the same 12 months totaled \$7.319 billion, or \$4,836 per nonfarm job. This is \$1,051 higher than the per-job average for the 12 months ending June 2005. The blue line on the following chart depicts the annual tax revenue collected by the State per job, calculated monthly. The red line on the graph adjusts the June 2005 net tax revenue per job for inflation, and indicates inflation-adjusted tax revenue per job has increased since June 2005 by \$290 and the remainder of the \$1,051 increase represents the impact of inflation.

Numbers are rounded to the nearest \$0.1 million. Percentages are calculated after rounding.

A percentage change displayed as "--" represents instances where the base year net revenue amount was zero or negative so no meaningful percentage change can be calculated.

Tax Categories Used in Table

Franchise (Bank) Tax: The franchise tax paid by banks is deposited in the State General Fund. Credit unions are taxed under a different system than banks, but the credit union tax is included in this line also. Of the total deposited, the bank tax provides approximately 98.0% of the revenue and the credit union tax 2.0%.

Beer & Liquor Tax: Taxes on beer, liquor, and wine are deposited in the State General Fund, the Liquor Control Fund, and a small amount is deposited in an Iowa Economic Development Authority fund for wine promotion.

Cigarette & Tobacco Tax: Prior to July 1, 2011, all cigarette and tobacco products tax revenue was deposited to the State General Fund. Beginning FY 2012, the first \$106.0 million of revenue from cigarette and tobacco taxes is deposited to the Health Care Trust Fund and the remainder is deposited to the State General Fund.

Corporate Income Tax: All corporate income tax is deposited in the State General Fund.

Motor Vehicle Fuel Tax: All motor vehicle fuel tax is deposited in one of two road use funds, with the exception of tax revenue from the sale of aviation and marine fuels.

Gambling Tax: Gambling tax is deposited in several State funds, including \$66.0 million per year to the State General Fund. Other funds receiving deposits of gambling tax revenue over the last 24 months include the School Infrastructure Fund, the Rebuild Iowa Infrastructure Fund, the County Endowment Fund, the Vision Iowa Fund, the Revenue Bonds Subsidy Holdback Fund, and the Revenue Bonds Debt Service Fund.

Individual Income Tax: Most individual income tax revenue is deposited in the State General Fund. A total of \$4.0 million per year is deposited in the Workforce Development Fund. An annual \$2.6 million diversion to the Child Daycare Fund ended in FY 2009. In addition, several economic development programs are financed by individual income tax withholding. In those instances, the employer does not remit the tax withheld from employees and it is never deposited in a State fund. That revenue is not included here.

Inheritance Tax: All inheritance tax is deposited in the State General Fund.

Insurance Premium Tax: All insurance premium tax is deposited in the State General Fund.

Other Taxes: Other taxes include brucellosis eradication property tax (deposited in a Department of Agriculture and Land Stewardship fund), drug stamp tax (State General Fund), utility replacement property tax (State General Fund), and car rental tax (Road Use Tax Fund). Other taxes also include a suspense account used to hold tax deposits prior to determining the correct tax type for the money and tax revenue transferred by the Department of Revenue to separate accounts to fund tax collection activities (tax gap and Department operations).

Real Estate Transfer Tax: Real estate transfer tax is collected by counties. Counties retain 17.25% and remit the remainder to the State. The distribution of State portion of real estate transfer tax revenue is currently changing each fiscal year, with the State General Fund portion reduced to 65.0% by FY 2015. The portion not deposited to the State General Fund is deposited to the Housing Trust Fund and the Shelter Assistance Fund.

Sales/Use Tax: General sales/use tax is deposited in the State General Fund, while most vehicle use tax is deposited in the Road Use Tax Fund. Beginning FY 2009, the vehicle use tax is referred to as a fee in the Iowa Code. To allow continuity of data, the revenue from the fee is reflected in this document as tax revenue. Also beginning FY 2009, the School Infrastructure Local Option (SILO) sales tax was converted to a statewide 1.0% sales/use tax and the revenue from that statewide tax is transferred out of the State General Fund monthly through a refund appropriation. To allow for continuity of data, the refund transfers are subtracted from State revenue as part of the net sales/use tax calculation.

Local Option Taxes: Local option taxes are presented at the bottom of the table and are not included in the numbers above. Prior to FY 2009, local option taxes included the SILO tax, Local Option Sales Tax (LOST) for local government finance, Local Option Income Surcharge for schools, and hotel/motel tax. Beginning FY 2009, the SILO tax was converted to a 1.0% statewide tax and the SILO was eliminated. To allow for continuity of data, the transfers from the State General Fund as a result of the 1.0% statewide tax are included in the local option tax amount.

Report Database

The database for this report is the State accounting system. If transactions are incorrectly coded in the system as tax revenue or tax refunds, the numbers presented here will be impacted.
